For more than seven hundred years, the Alexian Brothers have cared for the sick, the aged, the poor and the dying. The basic Judeo-Christian beliefs that inspired the founders of this Catholic religious congregation sustain its ministry today. This heritage is espoused by the governance, management and entire health care team throughout Alexian Brothers Health System in their mutual commitment to promote the physical, mental, spiritual and social well-being of all individuals served through the health care ministry.

Alexian Brothers Interfaith Parish Support Services carries out the healing mission of the Catholic Church through the Alexian Brothers ministries by identifying and developing effective responses to the health needs of those we are called to serve.
